THIS IS AMERICAN EDUCATION WEEK – A good time to remember that caring teachers, administration, education support professionals, board of education, and involved parents make the difference in a child's learning. Together, we're making a great public school for every child.

"The people who influence you are people who believe in you."

TOPP NOTE: Be Aware of What Your Kids are Doing Online: Talk with your kids about cyberbullying and other online issues regularly. Establish rules about appropriate use of computers, cell phones, and other technology. For example, be clear about what sites they can visit and what they are permitted to do when they're online. Show them how to be safe online. Help them be smart about what they post or say. Tell them not to share anything that could hurt or embarrass themselves or others. Once something is posted, it is out of their control whether someone else will forward it. Encourage kids to think about who they want to see the information and pictures they post online. Should complete strangers see it? Real friends only? Friends of friends? Think about how people who aren't friends could use it. Tell kids to keep their passwords safe and not share them with friends. Sharing passwords can compromise their control over their online identities and activities.

Sick Day Guidelines:

Making the Right Call When Your Child Is Sick:

Should I keep my child home or send him or her to school?

School policy (and state law) requires a child **stay home** if he or she:

- Has a **fever of 100.0 degrees** or higher
- Has been **vomiting** or has **diarrhea**
- Has symptoms that keep your child from participating in school, such as:
 - Very tired or poor appetite
 - Cough that he or she cannot control or sneezing often
 - Headache, body aches, or earache
 - Sore Throat—a little sore throat is ok for school, but a bad sore throat could be **strep throat**, even if there is no fever. Other signs of strep throat in children are a headache and stomach upset, or rash. Call your doctor if your child has these signs. A special test is needed to know if it is strep throat
- **Keep your child home if he is coughing or sneezing often because this spreads the sickness to others.**
- **Please notify the school nurse if your child is tests positive for the flu**

Remember the 24 hour Rule!!

- **FEVER:** Keep your child home until his or her **FEVER has been gone WITHOUT medicine for 24 hrs.** Colds can be contagious for at least 48 hours. Returning to school too soon may slow recovery and make others sick. **IF your child has been sent home with a fever, they cannot return the next day!**
- **VOMITING OR DIARRHEA:** Keep your child home for 24 hours after the **LAST** time he or she **vomited** or had **diarrhea**.
- **ANTIBIOTICS:** Keep your child home until 24 hours after **the FIRST dose of antibiotics** for anything like ear infection or strep throat.

We often have many children and adults with colds coming to school, and each one is passing their sickness to others. Please help others from becoming sick by keeping your child home while the sickest.

For more information, or if you have questions, please contact the School Nurse
